Celebración Mundial por la Paz

II- GROUPS FROM NORTH AMÉRICA AND SOUTH AMERICA, EUROPE, AFRICA AND ASIA

The presentation topics of the invited groups will be defined based on the block of guiding questions, proposed by the members of the Organizing Committee, and the Collaborators:

- 1- *How has TD changed the outlook of each of us?*
- 2- *What is the future challenge of TD?*
- 3- *How does TD contribute to understanding collapse or transition processes?*
- 4- *How can TD teach mediation as a methodology for resolving national and international conflicts?*
- 5- *What methods can be used to put TD proposals into practice in solving problems derived from the Anthropocene?*
- 6- *How can Transculturality be used as a tool to stop or correct destructive processes that accompany the Anthropocene?*
- 7- *How can TD reduce the communication and information gaps between second-order scientific knowledge and ancestral wisdom to strengthen our permanence in the face of the civilizational crisis?*
- 8- *How is TD part of the sustainable Peace processes by feeding transversal responses to the priority problems and rights of the human family with other living beings without going through violence?*
- 9- *How does TD feed new paradigms of sensitive, transparent, shared intelligence and knowledge that go beyond all segmentations, divisions and predatory logics?*
- 10- *Do we have the theoretical, methodological and practical strategies and devices to strengthen transdisciplinary projects of social justice, peace and human solidarity?*
- 11- *What role should researchers, academics and teachers play at multiple educational levels to articulate transdisciplinarity in their daily work and coexistence scenarios?*
